Help moms
in need

KSBJ is once again hosting the World's Biggest Baby Shower
Listen for updates and check out KSBJ's Facebook.

Many pregnancy centers in the Houston Galveston area will
be participating and will receive much needed items. Client
numbers have increased across the state. Please pray for the
success of this ministry.

Biden has told Ten Lies about Abortion (continued from previous issue)

4. *Women will be thrown in jail*

The pro-life movement has viewed women as the second victims of abortion. Pro-life legislation has always protected both victims. Penalties in pro-life laws apply to abortionists.

5. *After Dobbs, states will ban contraception and IVF*

Dobbs stated that the ruling only applies to abortion not contraception, not same-sex marriages, not anything else.

6. *We really don't know when life begins*

Biology is clear; a new human life begins at the moment of sperm-egg fusion..

(to be continued in the next issue)

From Our Files:

1. This client made adoption plans but when the baby came early she decided she could not let her baby go. She didn't know how she was going to make ends meet or take proper care of her baby but she was going to keep the baby. She lives with her mother but her mother plans on moving to another state which will make her financial problem worse. She came in recently and donated clothes her daughter has outgrown. She shared then that during delivery her daughter broke a hip. She has had surgery and is doing very well. She stated with all sincerity that she is happy that she had the baby. At the time of the initial test she was planning on having an abortion.
2. A woman that turned out to be a mother searching for agencies to help her daughter came into our office by 'mistake'. It turned out that her 13 year old daughter was raped. They have notified the police. The young lady has had a pregnancy test, HIV test, and STD test. She will need another HIV and STD test in a couple more months. We asked the mother if her daughter will receive counseling. The mom said no, it never occurred to her that her daughter would need counseling. We referred her to Family Time and encouraged her to have the entire family to be in counseling.
3. This client stated that she didn't think she could get her act together enough to continue the pregnancy much less take care of a baby. She seemed jittery and visibly out of sorts. The boyfriend didn't want her to say too much and was pushing for her to leave. They needed to talk about it before they make a final decision. Since then we have seen her on Kingwood Drive and Lake Houston Parkway holding up a sign saying she is pregnant and homeless. One of the volunteers stopped and told her we could give her agencies to call and she said no that she is getting a lot of money just by holding up her sign. *Update:* She did have the baby. She has been seen back on the street corners with a new sign, "New baby, need help."
