Letter from the Board of Directors

-President George Brooks

A Publication of Birthright Humble

Dear Volunteers and Supporters,

I first want to thank everyone for your faithfulness. Our volunteers have braved the virus so that our office remained open. Being there for those in need provided such relief from the stress of being pregnant and wondering what will happen during the pandemic with loss of income, limited resources, bills continuing to come, and with plenty more to worry about.

Your generosity in donating both items and money to meet those needs is an act for which the recipients can never repay. But, you are already repaid by the very act of showing love for someone you will never meet.

The last three years have certainly been challenging for us all. First Hurricane Harvey in 2017 when many flooded and our communities devastated. Then tropical storm Imelda flooded many homes and businesses, including the Birthright office. Now this viral pandemic makes life difficult and will be with us perhaps another year.

However, God has supplied our needs through it all. So, be reminded as we go through these difficult times that you do make a difference in the lives of the mothers, you help give life to the unborn, and you help ensure a chance for a healthy baby.

With our deepest gratitude, on behalf of the Board of Directors,

George Brooks

10 Reasons I Want an Abortion

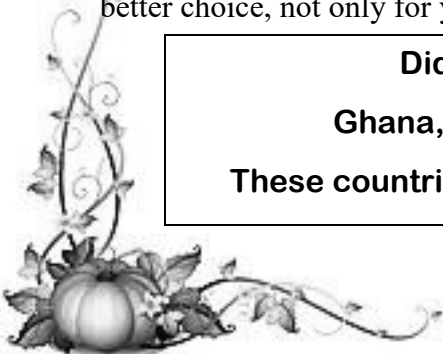

Continued from our Fall Issue-

We've listed below 2 reasons that women give for wanting an abortion. We've heard them all!

9. "I'm pregnant because of rape." Carrying this baby to term must seem unthinkable! Although our culture would give you "permissions" and even encouragement to abort, please don't jump to that as the obvious choice. Adding another violent act, abortion, to the horrible thing that has already happened to you, will only complicate your healing process. Don't allow the rapist to add to your emotional turmoil by causing you to end the life of an innocent child.

10. "I have to have an abortion. There's no other way." Let's stop to think of some other possibilities. Find people and agencies who help women with unintended pregnancies and ask them for creative ideas. Yes, your lifestyle will change. But, you will be amazed at how supportive others can be. Take time to think through your decision as you take a deep breath, gather information, view an ultrasound, and consider every alternative. Respect the life God has created within you, despite the circumstances. Safeguard your future health and well-being by confidently doing the right thing. You may not be happy with decisions made by you or others in the past. But, you now have the opportunity to make a better choice, not only for yourself, but also for your child.

**Did you know there are 5 Birthrights in Africa?
Ghana, Ivory Coast, Zambia, Nigeria, and South Africa.
These countries have limited resources causing high abortion rates.**

*Happy Thanksgiving
and Merry Christmas
to you from all of us at

Volunteer Spotlight

This photo is of our sweet volunteer Erin and her son Samuel. Erin started volunteering with us pre-Samuel but didn't want to stop altogether when she started her family. She comes in to work on the newsletter, the website, and on Facebook. Her little helper is a joy to all of us as we have watched him grow into a happy volunteer!

From Our Files: Our clients remain with us through the years

1. A client anxiously awaits the birth of her first daughter, she has three boys. She wasn't planning another pregnancy due to her age of 40, but to her surprise she did become pregnant and was beyond thrilled to find out it was a girl. She gave birth to a beautiful daughter. The baby had to stay in the hospital due to a health issue, tragically, the baby died during the week she was in the hospital. Due to Covid-19 only the mom and dad got to meet and say good-bye to the baby. They were able to have a memorial service for her.
2. One of our clients that has been with us for both of her children is in a very difficult situation. She and her husband had a business together and their first child. Then he moved out to be with a girlfriend, after a little while he returns to try to make their marriage work and they have a second child. Once again, after the birth of the second child he moves out to be with his girlfriend. The client has no family here, they are all in Mexico. He got a lawyer and is seeking a divorce BUT he also wants her out of the house, to take away the car, to get custody of the children, and leave her with absolutely nothing. She is working two jobs, comes to our office when she can. He does pay \$250 a month for child support. She could move back to Mexico and have support there but he won't allow it.
